GOOD PROGRESS AT BALLASTING

The I. & C. Has a Large Force
of Men at Work Near
New Palestine.

Road Bed Getting Soft and Cars
Run off the Track—Visit
by Eastern Men.

The Indianapolis & Cincinnati Traction company has resumed work on ballasting its track at the Western end of the Rushville division and has a large force of some one hundred men and two gravel trains working west of New Palestine.

Part of the line at that end has never been ballasted and the thawing of the ground has made the road bed so soft that in some places the cross ties are completely buried in the mud. There is danger too, of the track spreading and of the cars running off the track. This has already happened two or three times and the cars have been running from a half hour to an hour and a half late as a consequence. Saturday afternoon a car ran off the track at Julietta and traffic was, for a time, considerably delayed. Saturday night, the ten o'clock car leaving Indianapolis ran off the rails at the junction and did not get away until three o'clock Sunday morning. In each case special cars were sent out to relieve the passengers.

The company's private car No. 306 brought in a party of Eastern capitalists and [interurban men, who, together with the traction officials, visited and inspected] the power house and car barns. Several prominent Indiana men, including Ex-Governor Winfield T. Durbin, were in the party.

THE AWARDS WERE SOLD

Some Charges of Scandalous
Doings of the Worlds
Fair Commssion.

Salt Lake City, March 13.—The special committee recently sent to St. Louis by the lower house of the legislature of Utah to investigate irregularities in the accounts of Utah's committee to the Louisiana Purchase exposition have presented a report that is severe in its criticism of the management of the exposition. The report says:

"We are unanimous in reporting that, according to our knowledge and belief, the so-called awards, consisting of medals, ribbons, etc., supposedly given as marks of merit by the St. Louis official award ribbon committee by authority of the Louisiana Purchase exposition to the so-called successful exhibitors, are in our opinion an immense and gigantic fraud."

The report charges that so-called awards of merit are being issued "by a straw incorporation" for the sole purpose of being sold to be used in a commercial way as advertising matter. The committee reports the substance of a conversation with an agent alleged to be employed especially to sell these awards on commission. The alleged agent, the report says, exhibited one award "of special merit" that he said he had sold for \$500 and stated to the committee that a certain well-known manufacturing concern had paid as high as \$20,000 for a so-called official award to be used for advertising. The committee further charges that legitimate medals were being held back by the exposition management to promote this traffic in awards.

It is said that the Prohibitionists of New Jersey will father a bill in the legislature denying the right of an "habitual drunkard" to obtain a marriage license. Such a law has been enacted in Ohio and was recently enforced.

MUST BE IDENTIFIED

Duck Hunters Must Have Their
Pictures Taken Before They
Can Hunt.

Local duck hunters are somewhat troubled just now over the fact that the new duck law will go into force just about the time hunting becomes good. This would not worry the person who is not on the inside, but the fact is that before a person can bag a bird, he must first get his license. This license must contain a full description of the person who holds it, must tell how he cuts his hair, what kind of a mustache or whiskers he wears, in fact must give a minute description of himself. And that is not all. He must have his photograph attached to the license and it must fit the description. If the picture and the make-up of the man should differ, he would be liable to arrest and a lot of trouble. And all this preparing will have to be done while the ducks are flying overhead. This is enough to drive a hunter stark crazy.

A NEW ARMY

Will be Sent to Take the
Place of Kuropatkin's
Crushed Legions.

Kuropatkin's Crushed Legions. The Pass, March 13.—The Japanese, it is reported, have ceased their pursuit, at least temporarily. Some of the Japanese are twenty-five miles below Tie pass. A resumption of their advance is expected. Rumors are in circulation that the Japanese already are attempting another wide turning movement to drive the Russians from Tie pass. The Russian troops here have been arriving with hopelessly mixed units in consequence of the change in the front. The troops are being sorted out and organizations reformed and assigned to places to defend the new position; but whether Tie pass will be held or abandoned will probably not be decided for several days.

A QUIET WEDDING

(Connersville News.) Edward Hunsinger, of Laurel, a deaf mute, was married yesterday, to a young lady, at Indianapolis, similarly afflicted. It was said to have been a very quiet affair. Ed. didn't say a word when the minister asked him the momentous question, but the "sigus" went to show that everything was all right and eminently satisfactory.

WILL OBSERVE APPOMATTOX DAY

In commemoration of the fortieth anniversary of Gen. Lee's surrender, Sunday, April 9th, has been set aside as Appomattox day by the State G. A. R. All of the different posts over the State will hold church services on that day and an address, prepared by Daniel R. Lucas, department commander of the Indiana G. A. R., will be read as part of the ceremony.

TO LOCATE HERE

(Hagerstown Exponent.)

Lou Gohring will go to Rushville April 1st to accept a position with Charles Edgerton, formerly of this county, and who is now proprietor of a large hardware store in that city. Mr. Gohring will have charge of the tin and roofing department which has lately been added to the store. Mrs. Gohring and children will remain here for the present, as there are no available houses for rent in Rushville.

NO MORE THREE DAYS OF GRACE

Old Law is Wiped Out by the
Legislature—New One
Now in Force.

All Notes Must be Paid on the
Day That They Become Due
—Holidays Designated.

Governor Hanly has signed the Senator Roemlers' bill, concerning the maturity of negotiable instruments abolishing the three days of grace for commercial paper, and it thereby does away with a law almost as old as the business world. The bill is now in effect, as it contained an emergency clause.

The bill provides that all negotiable instruments shall be payable at the time fixed therein. When the day of maturity falls upon Sunday or a legal holiday the instrument shall be payable on the next succeeding business day. Negotiable instruments falling due on Saturday shall be presented for payment on the next succeeding business day, except that instruments payable on demand may, at the option of the holder, be presented for payment before 12 o'clock noon on Saturday when that entire day is not a holiday.

The bill further provides in cities of more than 35,000 population that Saturday, after 12 o'clock noon, shall be a half holiday for the banks, trust companies and safe deposit institutions. Legal holidays are made to include Sundays, New Year's day, July 4th, Christmas day, Washington's birthday, Memorial day, Labor day, and the day of any general, national or State election or any day named by the President or Governor as a day of public feasting or thanksgiving.

The bill failed to elicit much debate in either chamber at any time it was up for consideration. What little discussion it did inspire was relative to the feasibility of a half holiday Saturday and not to the clause doing away with the three days of grace.

IS NOW IN FULL SWING

The Syrup Making Industry
is Quite an Item in
This County.

The syrup making industry in Rush county is now on in full swing and every small boy who knows where to find a maple tree has been digging a hole in the bark and inserting a straw by which he could get all the juice which runs so well in thawing weather. There are a number of sugar camps in this county and almost all of them have been opened. The maple molasses industry in this county is no small industry and hundreds of dollars are expended annually by the people for the "home grown" molasses of the thick variety which is known as the genuine. A considerable amount of maple sugar is also sold and there is a ready market for it in this city and elsewhere in the county.

Farmers report a good run of sap each day and say that they find a ready market for the syrup even at \$1.35 per gallon. The chicken roasts are the thing now in social circles and each evening a party may be seen departing for some sugar camp to enjoy roast chickens and maple syrup.

Incendiaries Burn Station. Hammond, Ind., March 13.—Two weeks ago the Michigan Central depot at Lake station, where the car barn bandits were imprisoned after their capture, was robbed. Saturday evening, in the absence of Jay Lewis, the agent, incendiaries set fire to the structure and it was totally destroyed.

TRAMPS ARRIVING

The Warm Weather Has Begun to
Stir Them Up a
Bit.

The warm weather of the past two weeks has started the hoboes on their travels, and Rushville is getting a few of the representatives every day. Today quite a number of the leisureed gentry were in the city asking for "hand-outs." They, however, have not become so numerous as to be troublesome or run counter to the police, but still more and more are drifting in on us every day.

Residents should be very careful about locking their doors upon retiring or leaving the house, for usually at this season of the year small cities have an epidemic of burglaries. The hoboes who during the past winter have lived out a miserable existence in the joints and cheap lodging houses of the big cities are now starting out on their annual spring trip over the railroads, and as they all need new clothes, shoes and some money, they engage in house breaking to fill their needs.

A stone pile is badly needed in this city and if one would be established the tramps would steer clear of Rushville. The county commissioners should think the matter over.

THE NEW COLOR "ALICE BLUE"

A Fashionable Shade of Silk
Which Will Soon Tempt
the Ladies.

While some of our readers may have heard of the new color for dress goods, known as "Alice blue," it is doubtful if many know where the peculiar name came from. As a matter of fact, the color is not absolutely new, but it is something decidedly out of the ordinary for the wearer of the newest thing in clothes.

As yet there is none of the new color shown in the local market, but no doubt "Alice blue" will soon make its appearance, especially if there should be a demand for it. In the larger cities the color is becoming the rage.

It is called the "Alice blue" after Miss Alice Roosevelt, although it is known to dealers as in the goblin shades. It is much softer than the standard goblin blue, running something into the gray blues. Once inaugurated, as it was along with the inauguration of President Roosevelt, the color became the proper thing.

The color was chosen by Miss Roosevelt at the St. Louis exposition. While Miss Roosevelt was at the fair she visited the American silk exhibit. There she found a blue which, although it has not been worn, is in a class with the orange and rose shades of the last season.

The color appealed to Miss Roosevelt as one that would be particularly becoming to her mother. She begged a sample, treasured it, and it came finally to the White House and so to a consideration which is to give it rare popularity.

Mrs. Roosevelt determined on the color for her inaugural gown, combining it with gold. Across the stuff at regular intervals is a flock of birds woven in gold thread. The birds were Mrs. Roosevelt's idea and the combination of the whole was finally evolved by Miss Alice. The largest of the birds, the leader of the flock, measures between wing tips two inches.

Freight Wreck on C. H. & D.

Last evening at about seven o'clock a cut of coal cars was derailed on the C. H. & D. at Cottage Grove and for a time it was rumored that several train hands had been injured, but it appears that no serious damage had been done, except to the derailed cars and no one was injured. The regular trains were delayed but a short time and everything was running smoothly this morning.

ARE KEEPING UP A HOT PURSUIT

Russians Will Hardly be Able
to Give Battle to Japs
at Tie Pass.

Victorious Soldiers of the Great
Oyama Are Following Their
Enemy Hot Foot.

While General Kuropatkin has apparently succeeded in saving more of his artillery than seemed possible, his losses in men, ammunition and commissariat supplies in the battle of Mukden are far greater than earlier reports indicated and even that portion of his army which he succeeded in extricating from the positions around Mukden is still in serious danger. The Japanese generals, realizing that with a little more speed they could have inflicted a crushing defeat on the Russian army after the battle of Liao Yang, determined not to again allow an opportunity to pass and are following after the defeated and sorely tried Russian forces. While a small portion of Kuropatkin's army has reached Tie Pass, the greater part of those who escaped from the battle of Mukden are still struggling onward, being at last accounts between 12 and 16 miles from their goal, with the Japanese, flushed with victory and reinforced by fresh men, harassing them from all sides. Even should the remnant of the army reach Tie pass it is hardly possible for it to make a stand there against the overwhelming force opposing it, especially as the Russians must be worn out and weakened by the loss of men, guns and ammunition. It is more likely that Kuropatkin will fall right back to Harbin with what he can have and wait there for the reinforcements that St. Petersburg already has promised him. A possible obstacle to the plan is General Kamamura's army, which has not been located and which may also be heading for the northern capital.

General Kuropatkin admits that 1,190 officers and 46,931 men are not responding to roll calls. This is rather vague. It may or may not include the thousands of wounded who have been sent North, and again it may not include the losses suffered by the third army, with which the commander-in-chief was not in communication for some time. The figures given by the Japanese war office appear more reasonable, namely 40,000 prisoners, 26,500 dead left on the field and 90,000 killed or wounded, the latter figure of course including the dead found by the Japanese. The Russian losses therefore total over 100,000 men, or more than one-third of the whole army. The fact that the Japanese report the capture of only sixty guns indicates that Kuropatkin at the last moment succeeded in sending a considerable portion of his artillery northward on the railway. The Japanese losses up to this morning were reported as 41,222, not including the army which pushed north between Mukden and Fushun.

Official Russia is determined to carry on the war, and St. Petersburg reports that orders have been issued for the mobilization of more troops. This may prove a difficult task with the temper of the Russian people in its present condition. There is still hope in St. Petersburg that Russia can exhaust Japan financially, and for months there has been talk of the mobilization of an army on the Siberian border which would compel Japan to keep her vast army in Manchuria.

NEEDED REST

West Baden, Ind., March 13.—Sidney W. Cantwell, speaker of the Indiana house, has been quietly resting and recuperating at this resort the past week. He is not sick but needs rest, which he is now obtaining. Of the work of the legislature as a whole Mr. Cantwell expresses himself as being well satisfied.

DEATHS

The death of Miss Mary Quirk, daughter of Mr. and Mrs. Bartholomew Quirk, occurred Sunday evening at 7 o'clock, at the home of her parents west of this city. Miss Quirk was forty-three years of age, and was a woman whose loss will be deeply felt in the community in which she lived. The funeral will be held Wednesday morning at 9:30 at the Catholic church. Interment at the Catholic cemetery.

Enoch Cottingham, who had been ill with paralysis and kidney trouble at his home on West Ninth street, for a long time, passed away Sunday night at 11:45 o'clock. Mr. Cottingham had been a patient sufferer but was unable to stay the hand of death. He was perhaps one of the best known citizens in the county and he was respected by everyone. He was 83 years, 5 months and 24 days old, and was born in Centerville, Ohio, being the son of David and Elizabeth Cottingham. He leaves a widow, two sons, Will, of Anderson and James of this city and one daughter, Mrs. Lizzie Wilson of this city. The funeral services will be held Tuesday afternoon at 2:30 o'clock at the residence, conducted by Rev. W. W. Sniff. The burial will take place in East Hill cemetery.

Joseph V. Shipp, of Indianapolis, died Saturday of heart disease, at his home in that city. He was the father of Thomas Shipp, private Secretary to Senator Beveridge, and was 60 years old. He was a former resident of Morristown, and was a son of the late Rev. Thomas Shipp. He is well known throughout the county especially in the southern and western parts.

LODGE NOTES

The Odd Fellows Talisman gives in full the account that appeared in the Daily Republican of Feb. 11th, relative to the Odd Fellows of this city visiting Arlington.

Grandmaster Edwin Farrar, of the I. O. O. F. of Indiana, has granted dispensations for a new subordinate lodge at Hamlet, Stark county, and for a new Rebekah lodge at Asherville, Clay county.

The following from the Odd Fellows Talisman, refers to Grand Master Edwin Farrar, of this city: "The Grand Master is devoting all his energies to the advancement of the order. He has made appeals to the lodges, the district deputies and members and they have not been in vain. Already several new lodges have been instituted at desirable places and others are on the way. He is entitled to the support of every lodge and member that this may be the banner year, not for his glory—which he does not seek—but for the unbroken record of prosperity may be continued."

Are you a member for revenue only? If not why do you not attend the meetings of your lodge and "bear your share in its labors and responsibilities?" If you had a financial interest in a business that was depending in part upon your inspection and attention to keep it going and you never went near the business or took any part in keeping it alive, except "to pay your dues regularly," how would you expect your interest to be taken care of or the business kept going? Who do you expect is going to look after the interest of your lodge which you never attend? Do you expect it to run without attention and care from someone?

The Rev. D. R. Lucas, department commander of G. A. R., has issued general order No. 6, relating to the State and National encampments of the organization. The order states that the National encampment will be held in Denver, Colo., the week beginning September 4, 1905.

The Twenty-sixth Annual State encampment is to be held at Madison, Ind., beginning June 14th, and continuing until the business is transacted. According to the general order, 1 cent fare with 25 cents additional in all cases where the fare would amount to more than \$1 has been obtained. Where the fare would be less than \$1, the 25 cents additional will not be charged.

The order also contains the request of Sargeon General Dr. Warren R. King for information concerning any insane soldiers confined in poor asylums. A reference is also made in the order to the death of General Lew Wallace.

THEY MUST MAKE IT GOOD

Commissioners Call on De-
faulting Treasurers' Bonds-
men to Settle.

It is Now Definitely Known Just
How Much Frank Obenchain
Got Away With.

Logansport, Ind., March 13.—The report of C. B. Lockhart of Indianapolis, assistant to Attorney General Miller, and C. C. White of Noblesville, who examined the books of E. F. Obenchain, the defaulting treasurer of Cass county, just made to the commissioners, shows the shortage to be \$60,220.30.

The bondsmen of Obenchain will be called upon at once to make a statement to the commissioners as to how soon they will replace this shortage and make arrangements for so doing. A difficult question for them to decide will be the relative liability of three sets of bondsmen covering two terms of Obenchain's administration and a part of that of his predecessor in office.

MRS. CHADWICK IS CONVICTED

She is Found Guilty of Con-
spiracy to Defraud and
Collapses.

Cleveland, O., March 13.—Mrs. Cassie L. Chadwick was found guilty of conspiracy to defraud the United States by conspiring to procure the certification of checks on a national bank when there were no funds in the bank to her credit. She was found guilty on seven counts on which the jury was at liberty to judge her.

The original indictment contained sixteen counts. Two of these were ruled out during the trial by Judge Taylor and of the remaining fourteen one-half charged her with securing the certification of checks without having the proper entries made on the books of the bank. Judge Taylor, in his charge, directed the jury to disregard these counts and consider only the remaining seven, which related to the certification with no funds on deposit. Under the law she can be fined on each count not more than \$10,000 or imprisoned not more than two years on each count.

An Eastern scientist announces the discovery that "where a man has fifty dreams a woman has seventy-five. But maybe this extra 33 1/3 per cent. are Easter bonnet dreams!"

BY THE WAYSIDE

An exchange says: "Limburger cheese laid away in cupboard will drive away ants." Yes, verily, We say unto you, it will drive hogs out of a tan yard; it will drive buzzards away from a carcass; it will drive a herd of buffalo through a burning forest and a mule through a barbed wire fence; it will drive men crazy if compelled to stay in 20 feet of its polluted presence; indeed it will drive away ants—and uncles, too, and mothers and fathers, brothers, sisters and grandmothers, even to the seventh generation; still there are some who claim to like Limburger.—No, No, not for us.

Political Gossip.

The Next State Convention Attracts Attention Afar.

Indianapolis, March 13.—The gos-
 sips are already busy figuring on the
 makeup of the Republican state ticket
 in 1906. Owing to the big Republican
 plurality last year it is very probable
 there will be a large field of candi-
 dates. Senator C. C. Lyons, chairman
 of the speakers' bureau of the Repub-
 lican state committee, who at one
 time was thought to be in line for the
 Lawrenceburg revenue collectorship,
 is being mentioned for the nomination
 for secretary of state next year, but
 he will not be a candidate if Sec-
 retary Fred Sims of the state com-
 mittee formally enters the race. Ly-
 ons and Sims are very close friends
 and would not be candidates for the
 same position. As Sims was men-
 tioned first, Lyons will give him the
 right-of-way. Sims' candidacy will
 not be formally announced for some
 time, but much work is now being
 done quietly in his behalf. It is said
 that Senator Pressly Smith of Morgan
 county contemplates becoming a can-
 didate, but the race is now between
 Sims and Frank I. Grubbs, deputy
 secretary of state. Senator Josiah G.
 Powell of Logansport contemplates
 becoming a candidate for the Repub-
 lican nomination for auditor of state.
 Several other Republican leaders are
 getting ready to go after state offices
 next year.

Attention has again been called to
 the futile efforts of James S. Stutes-
 man of Peru to land a consular posi-
 tion by the appointment of John W.
 O'Hara of Peru as consul to Monte-
 video. Stutesman was the acknowl-
 edged leader on the Republican side
 of the house during two sessions of
 the legislature and has taken a promi-
 nent part in state politics for several
 years. He has a large personal fol-
 lowing and he presented a stack of
 endorsements two feet high to the
 state department at Washington and
 called on the president several times
 relative to his application. He even
 went so far as to have the endorse-
 ments handsomely bound in morocco
 leather so they could be preserved, but
 he was unable to get a promise
 of anything. O'Hara, on the other
 hand, has practically no acquaintance
 among state politicians; in fact he
 is almost an entire stranger, yet he
 has been designated for a place with-
 out any endorsements from the party
 leaders.

Seven Barks

(Extract of Hydrangea Bark).

HYDRANGEA PLANT. Is the name given a wonder-
 fully successful medicinal
 preparation, discovered and formulated 33 years ago, by the once cele-
 brated physician and chemist, Dr. Franz Gauswiler, of Weisbaden,
 Germany. The curative properties of "SEVEN BARKS" are ex-
 tracted from the bark of a specially grown species of the Hydrangea plant
 —the bark of which, as botanists will tell you, grows in seven layers, each
 of different color and each possessing a distinctive medicinal value. It is
 the only plant known from which is extracted providence-given elements,
 which in combination produce a single panacea that is a sovereign
 remedy for most all ailments and diseases of the

Lungs, Stomach, Bowels, Liver, Kidneys and Nerves.

"SEVEN BARKS" was introduced in America in 1872 by Mr. Lyman Brown, of New
 York City, a chemist of national repute, who in the early '70's spent nearly a year in Weis-
 baden before he could secure the highly prized formula. Although "SEVEN BARKS"
 has never been advertised in newspapers, yet thousands of American families are never
 without a bottle, while hundreds of physicians and druggists are recommending and pre-
 scribing it. By this slow process of personal recommendation "SEVEN BARKS" is today
 one of the most popular and most successful remedies on the American market. The
 reader has no doubt heard of it.

The undersigned purchased the formula and sole right of distribution in the United
 States. He realizes that every family desiring continuous good health should always
 keep a supply on hand, therefore strenuous efforts will be made to introduce it in every
 home where it is unknown.

If From any disorder of the stomach, or you are inclined to attacks of bilious-
 ness or constipation; if your bowels are inactive at times; if your kidneys are
 sluggish or pain you, or you suffer from sick or neuralgic headaches, buy a
 50 Cent bottle of "SEVEN BARKS" from your druggist. If this first
 bottle does not benefit you, or you are disappointed in its action, take the
 remaining portion back and get your money. It will be cheerfully returned.

If you cannot afford to pay for a bottle now, send us your name and
 address. We will give you an order on your home druggist for a bottle,
 with our compliments.

THE DOVE OF PEACE

Out of the Wreck and Ruin of War May Yet Come Better Things.

THE LONDON VIEW OF IT

It Is Considered There That For Rus-
 sia Now to Continue War Would
 Be Sheer Madness.

The Internal Disturbances in the
 Land of the Muscovite Adds to
 Delicate Situation.

London, March 13.—The London
 newspapers today are occupied by the
 question of whether Russia can con-
 tinue the campaign. Even in the
 light of later dispatches showing that
 General Kuropatkin has retrieved a
 portion of two of his armies, it is
 contended that his great army no
 longer exists as a concrete fighting
 force, and it is believed the Japanese,
 after a few days which will be re-
 quired to rest and reorganize, will
 compel him to fight another battle in
 his present exhausted and denuded
 condition at Tie pass. In short, the
 general opinion is that in the face of
 financial and other difficulties an at-
 tempt to continue the war would be
 almost madness.

The latest dispatches seem to in-
 dicate that the Russian Baltic fleet is
 still waiting at Madagascar.

A Tokio correspondent says that
 the Japanese spoils at Mukden in-
 clude a large quantity of bullion. He
 adds that the Russians carried away
 by force the Chinese governor general
 of Mukden who was suspected of pro-
 Japanese tendencies.

A correspondent at Shanghai says
 that Paul Lessar, the Russian minis-
 ter to China, has sent a protest to the
 Chinese foreign office alleging that
 General Ma's troops operated with
 Chinese bandits against the Russians
 at Simimintin.

Special dispatches to the London
 newspapers from St. Petersburg, Kiev
 and elsewhere all report a serious in-
 ternal situation and especially the ex-
 tension of the peasant movement,
 even to the Baltic provinces. It is de-
 clared in these dispatches that the
 peasants are trying to forcibly pos-
 sess themselves of land and that they
 are burning and otherwise destroying
 property wholesale.

A St. Petersburg correspondent
 says: "General Kuropatkin has asked
 the emperor's gracious permission to
 hand over his command, alleging that
 he is in urgent need of physical and
 mental rest."

"I learn on the best authority," con-
 tinues this correspondent, "that Japan
 has twice approached Russia through
 informal channels on the subject of
 peace negotiations, but that in each
 case the proposal failed because Jap-
 an demanded an indemnity and a
 pledge that Russia would not keep
 warships in the Pacific for twenty-
 five years. The Japanese insistence
 on indemnity convinces the Russian
 government that her pecuniary re-
 sources are exhausted and that by
 continuing the war only a few months
 longer, Russia will get better terms."

THE JAPANESE VIEW

War Will Be Continued Until Russia
 Is Humbled.

Tokio, March 13.—The Japanese
 pursuit of the Russian armies con-
 tinues and a resumption of heavy fight-
 ing in the vicinity of Tie pass is an-
 ticipated. Tie pass which is natu-
 rally strong, has been extensively forti-
 fied and it is thought the Russians
 will rally there in an endeavor to
 check the Japanese.

The rapidly advancing Japanese al-
 ready are in touch at Tie pass. The
 Russians evidently are confused and
 exhausted and possibly are short of
 food and ammunition, and it is be-
 lieved here they will be unable to re-
 sist a strong attack.

Succeeding field reports tell of the
 extent of the Russian disaster. It
 will require months to re-supply and
 reorganize the Russian armies. Esti-
 mates of casualties given by captives
 reach 40 per cent. The artillery
 losses were especially heavy.

The captured guns have not yet
 been counted, but the numerous cap-
 tured stores and munitions are valued
 at millions of dollars. This loss ma-
 terially adds to the crippling of the
 Russian armies.

The Japanese people are receiving
 details of the victory with calmness.
 Tokio and other cities are exceedingly
 quiet and the recent admonition to the
 people to refrain from spending money
 in celebrations and devote their
 savings to war charities is being uni-
 versally obeyed.

The Japanese press editorials in
 discussing the possible effect of the
 victory on peace declare Japan will
 continue the vigorous prosecution of
 the war and has no suggestion to
 make to Russia, directly or indirectly.

A Tien Tsin Estimate.

Tien Tsin, March 13.—The well in-
 formed here roughly estimate the to-
 tal Russian casualties at 150,000 men
 and those of the Japanese at 60,000.
 It is reported that Tie Pass is practi-
 cally undefended and another great
 action is regarded as improbable.
 Late estimates place the Russian
 dead left on the field at about 30,000.

St. Petersburg, March 13.—The im-
 mediate answer of the Russian gov-
 ernment to the defeat at Mukden is
 the announcement that a new army
 will be raised and forces in the far
 East reorganized; that Vice Admiral
 Rozhdestvensky will be ordered to sail
 on and try conclusions with Togo,
 and that the war will be prosecuted
 to the bitter end.

This is the present temper of Em-
 peror Nicholas and his dominant ad-
 visers, voiced in a firm official an-
 nouncement that the position of the
 Russian government is unchanged
 and that the initiative for peace can
 only come from Japan. Should the
 Island Empire choose to tender "mod-
 erate" terms and recognize its adver-
 sary as a power in the far East peace
 could be arranged, but the voice of
 her diplomacy in various parts of the
 world indicates that she is not ready
 to do this and the Russian govern-
 ment, with the full magnitude of the
 disaster at Mukden still undetermined
 but with the 1905 campaign seemingly
 already hopelessly compromised, re-
 treat to Harbin inevitable and Vladiv-
 ostok practically lost, declares that
 the time has not yet come when Rus-
 sia can be forced to humble herself.

It is reported that the dispatch of
 two new army corps, including the
 Fourteenth, from Poland, and several
 smaller units, has already been deter-
 mined upon and that plans for further
 mobilization are under discussion.

But while this is the official atti-
 tude, nothing, but peace talk is heard
 in St. Petersburg. The difficulties of
 another mobilization on a large scale
 will be enormous; in fact, it is stated
 in some quarters that it will be im-
 possible. Nevertheless it might be
 accomplished. The real hope, how-
 ever, for anything like a successful
 termination of the war is admitted
 to rest upon the prospects of the
 financial exhaustion of Japan. Rus-
 sian resources, it is figured, can stand
 the drain better than those of Japan,
 and a protracted campaign it is hoped
 will bring about Japan's financial
 ruin. Financial Minister Kokovzoff
 at the conclusion of a conference on
 the national finances a few days ago,
 is said to have tapped the table be-
 fore him and exclaimed: "We can
 win the war at this desk."

The Russian capital is still in ig-
 norance of the nature and extent of
 the reverse in Manchuria. The only
 information of its magnitude is that
 which has been derived from the few
 Tokio telegrams that have been al-
 lowed to be published here. To the
 censor at Tie pass the word "prison-
 er" does not exist, and not the slight-
 est intimation of what, if any, units
 and organizations have been cut off
 and captured has reached this city
 either in General Kuropatkin's official
 dispatches or in reports from corre-
 spondents at the front.

Aside from the reports given out
 by the war office there is practically
 no further information of the progress
 of events, the newspaper dispatches
 received being principally those filed
 before the retreat began and trans-
 ported to Tie pass among the papers
 of the telegraph office. It is declared
 that at the moment that Kuroki's
 wedge, aided by the dust storm and
 taking advantage of the failure of sev-
 eral Russian organizations to occupy
 appointed positions, drove itself deep
 into the Russian flank, it disarranged
 all the plans of Kuropatkin, who was
 on the point of launching a momen-
 tous counter stroke; but where or how
 it was to be accomplished is not
 stated.

General Kuropatkin has telegraphed
 to Emperor Nicholas assuming
 himself all the responsibility for his
 defeat, making no excuses except
 that the strength of the Japanese was
 miscalculated, and refusing to place
 any of the blame upon the council
 of generals upon whose advice he de-
 termined to give battle. This manly
 course and the general's personal ex-
 ertions in directing the retreat will
 however, hardly save him. His repu-
 tation as an offensive strategist is
 gone and though the Emperor's mili-
 tary advisors know not where to look
 for a better general, his resignation
 will be accepted. But it will be diffi-
 cult to find a capable successor, but
 it is said now that it probably will
 be General Grodekoff, governor of
 Amur, although in casting about for
 another commander-in-chief some mili-
 tary officials are turning to General
 Dragomiroff, who is considered to be
 Russia's greatest strategist; but he
 is a feeble old man, suffering with
 heart affection, and it is highly im-
 probable that he would be able even
 to make the long trip to Manchuria.

In losing General Kuropatkin the
 army will lose the idol of the private
 soldiers, an officer who, in spite of
 the intrigues of his generals and his
 failure to win a battle, has won their
 confidence and affection.

To the Victors Belong the Spoils.

Washington, March 13.—The Jap-
 anese legation has received the fol-
 lowing cablegram from the foreign
 office at Tokio: "The armies on the
 Shangkai quarter reported up to Sun-
 day morning the following approxi-
 mate figures, which are still increas-
 ing: Prisoners over 40,000, including
 Major General Nachmoss. Russian
 corpses on the field 26,500. Other
 Russian casualties 90,000. Trophies,
 two ensigns, 60 guns, 60,000 rifles,

 wagons, 200,000 shells, 25,000,000 shots
 for rifles; 74,000 bushels of grain,
 materials for light railroad for 46
 miles; 300 wagons for light road;

 bushels of horse allowances and 125,
 000 pounds of hay. The report from
